COMPANY PROFILE

Plot No E-204, BoI GIDC, Engineering Estate-2, Sanand, GIDC Khoraj, Ahmedabad, Gujarat-382160, India

Mr. Pratik Raval
Managing Director

Mr. Devang Raval
Managing Director

About Us

Kena Group is a diversified industrial group delivering integrated solutions in surface coating, precision engineering, and transportation.

Through our group companies, **KenaCoat, KenaAd Coaters, Omkar Engineering, and Yogesh Transport,** we support manufacturing and industrial clients with quality-driven processes, modern infrastructure, and reliable execution.

Our focus remains on durability, accuracy, and timely delivery, enabling long-term partnerships across multiple industries.

> **Quality** > **Reliability** > **Consistency**

An integrated industrial group delivering complete surface protection, manufacturing, and logistics solutions under one umbrella.

- > CED Coating
- > Powder Coating
- > PVC Coating

- > Sheet Metal Components
- > Precision Manufacturing
- > Steel Fabrication

- > Alkaline Zinc Plating
- > Zinc Nickel Plating
- > Blue & Yellow Passivation

- > Fleet of 10 Vehicles
- > Closed Body Containers
- > 32 Ft Long

Why Us?

Kena Group is built to simplify industrial partnerships by offering a well-coordinated, multi-company ecosystem. Clients benefit from streamlined communication, faster decision-making, and smoother execution across projects of varying scale and complexity.

Driven by strong leadership and process-focused operations, we emphasize precision, accountability, and timely delivery. Our long-term client relationships are a result of disciplined execution and a deep understanding of industrial requirements.

MISSION

To deliver dependable execution through structured processes, modern capabilities, and a client-focused approach.

VISION

To become a preferred industrial solutions partner by delivering operational excellence, and sustainable long-term value.

TIMELINE

Established to deliver integrated solutions with a long-term vision.

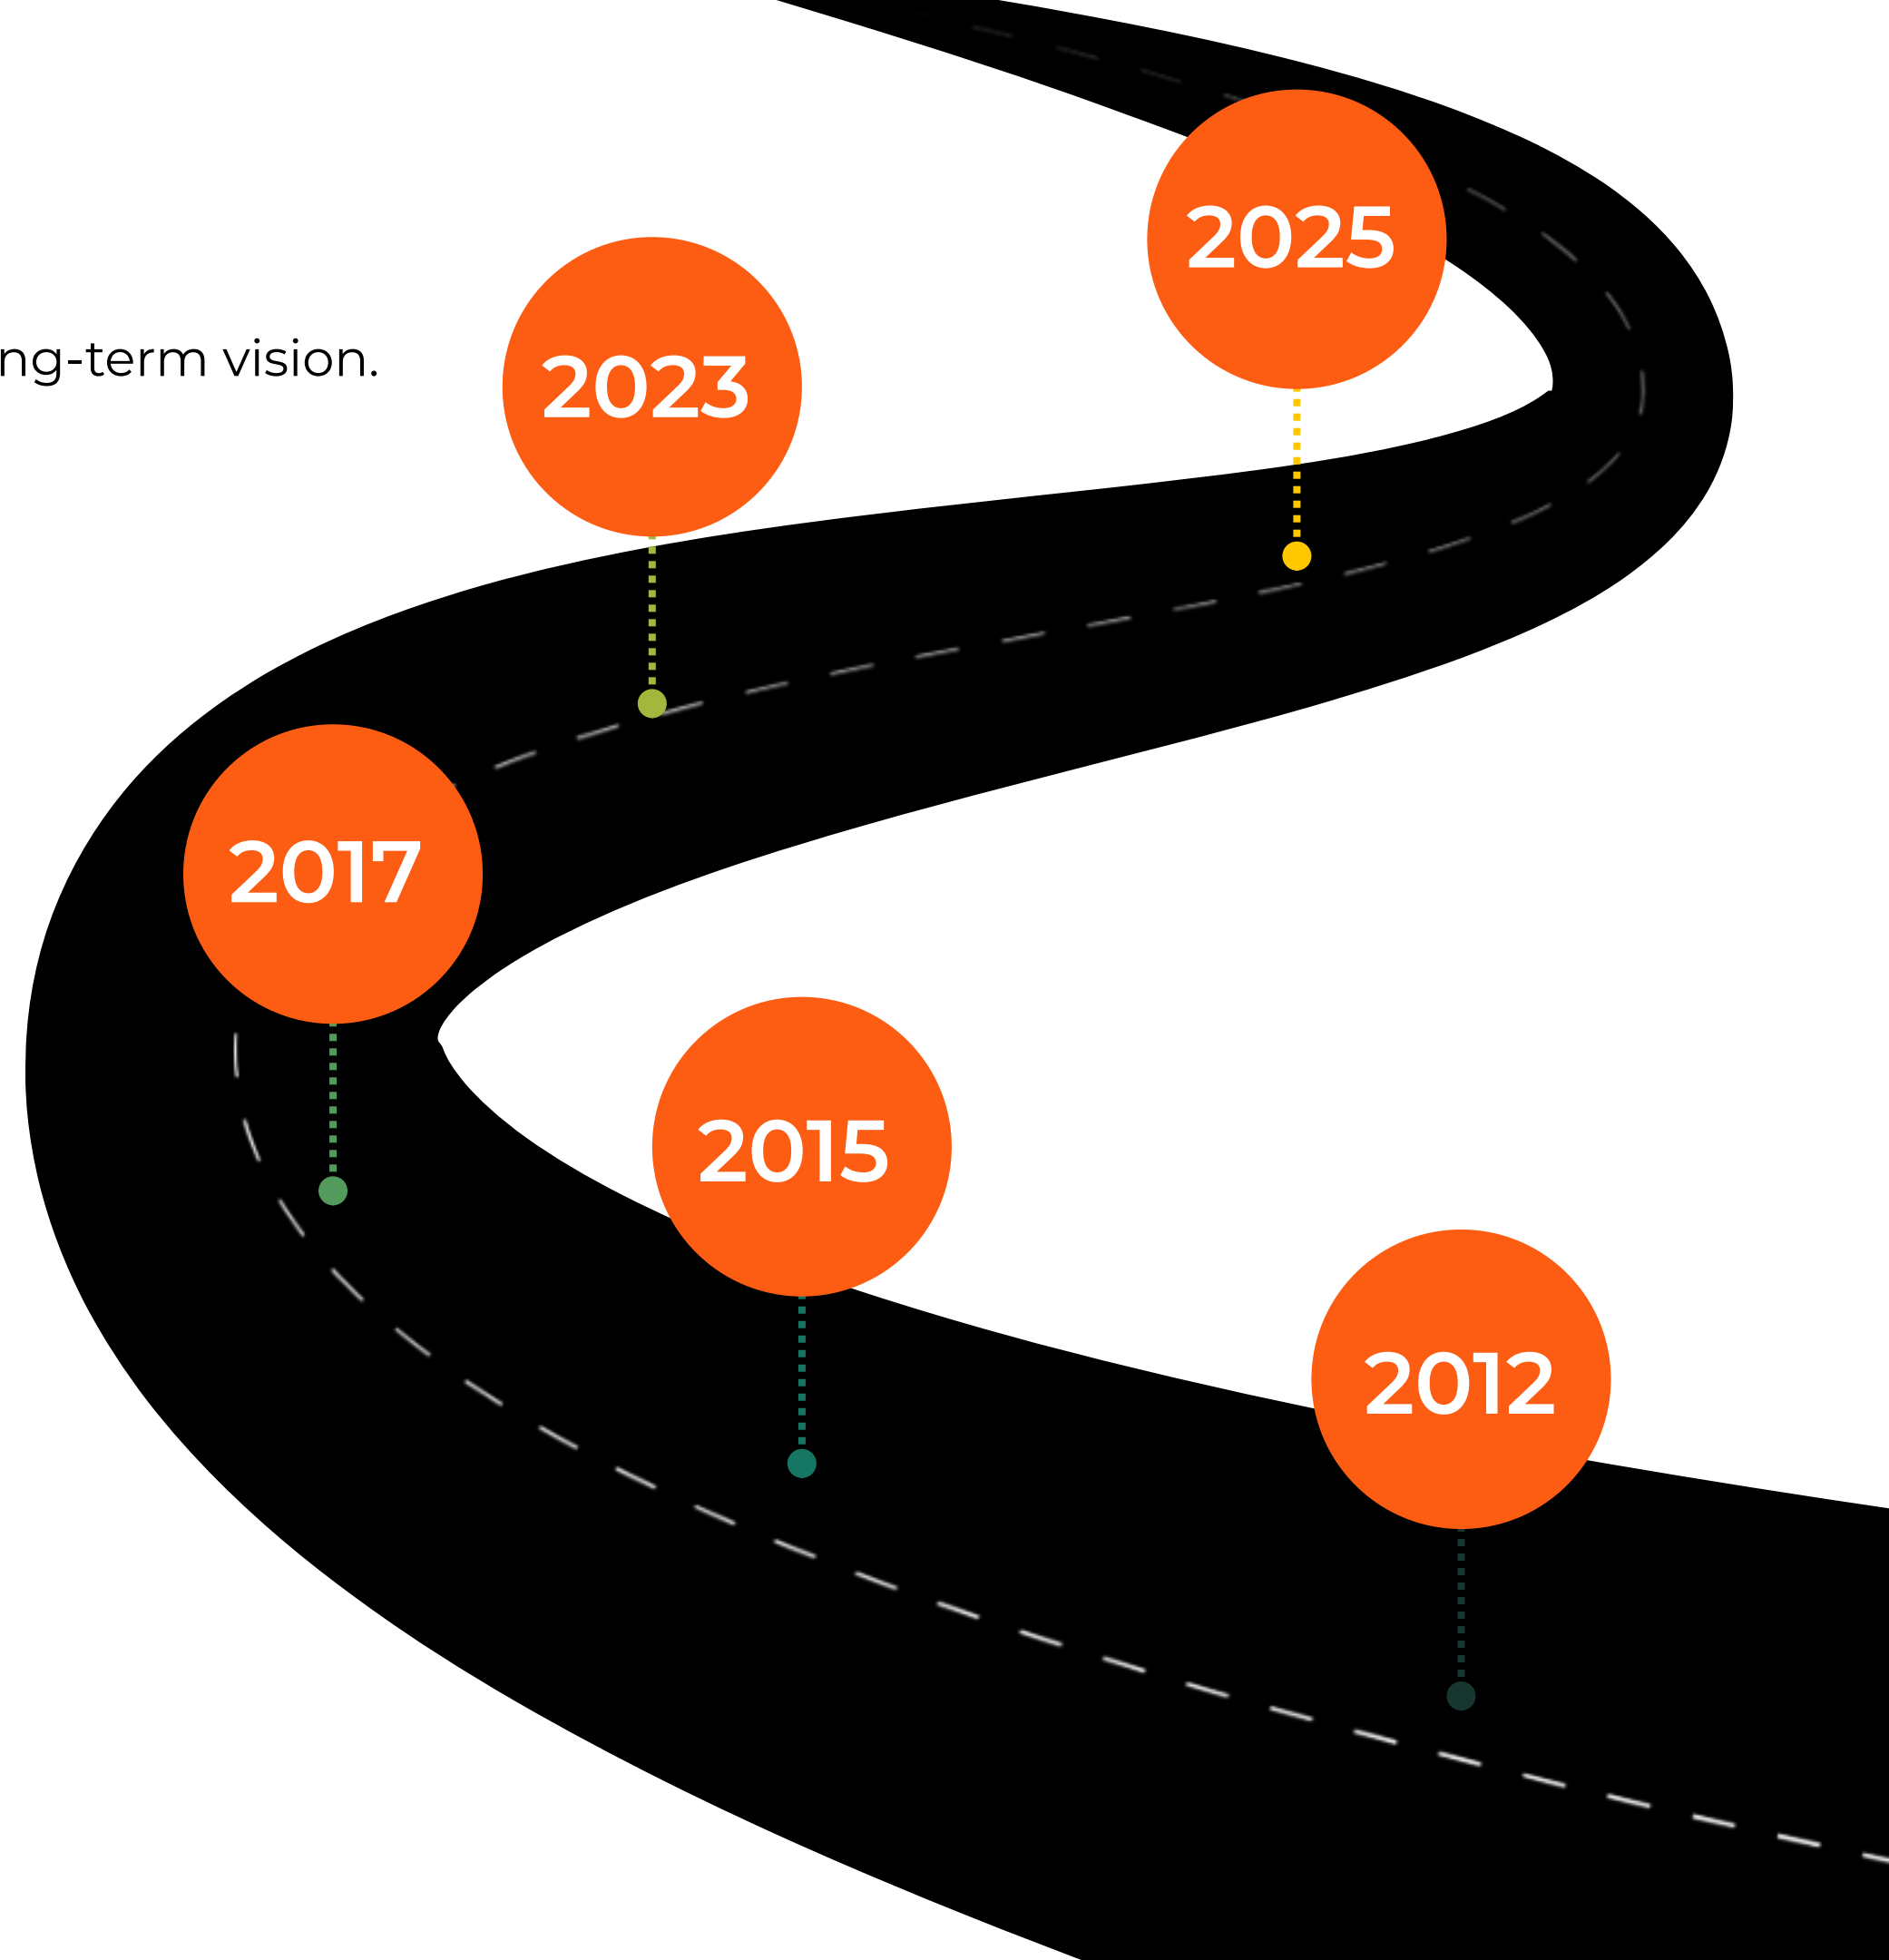

2012 Powder Coating

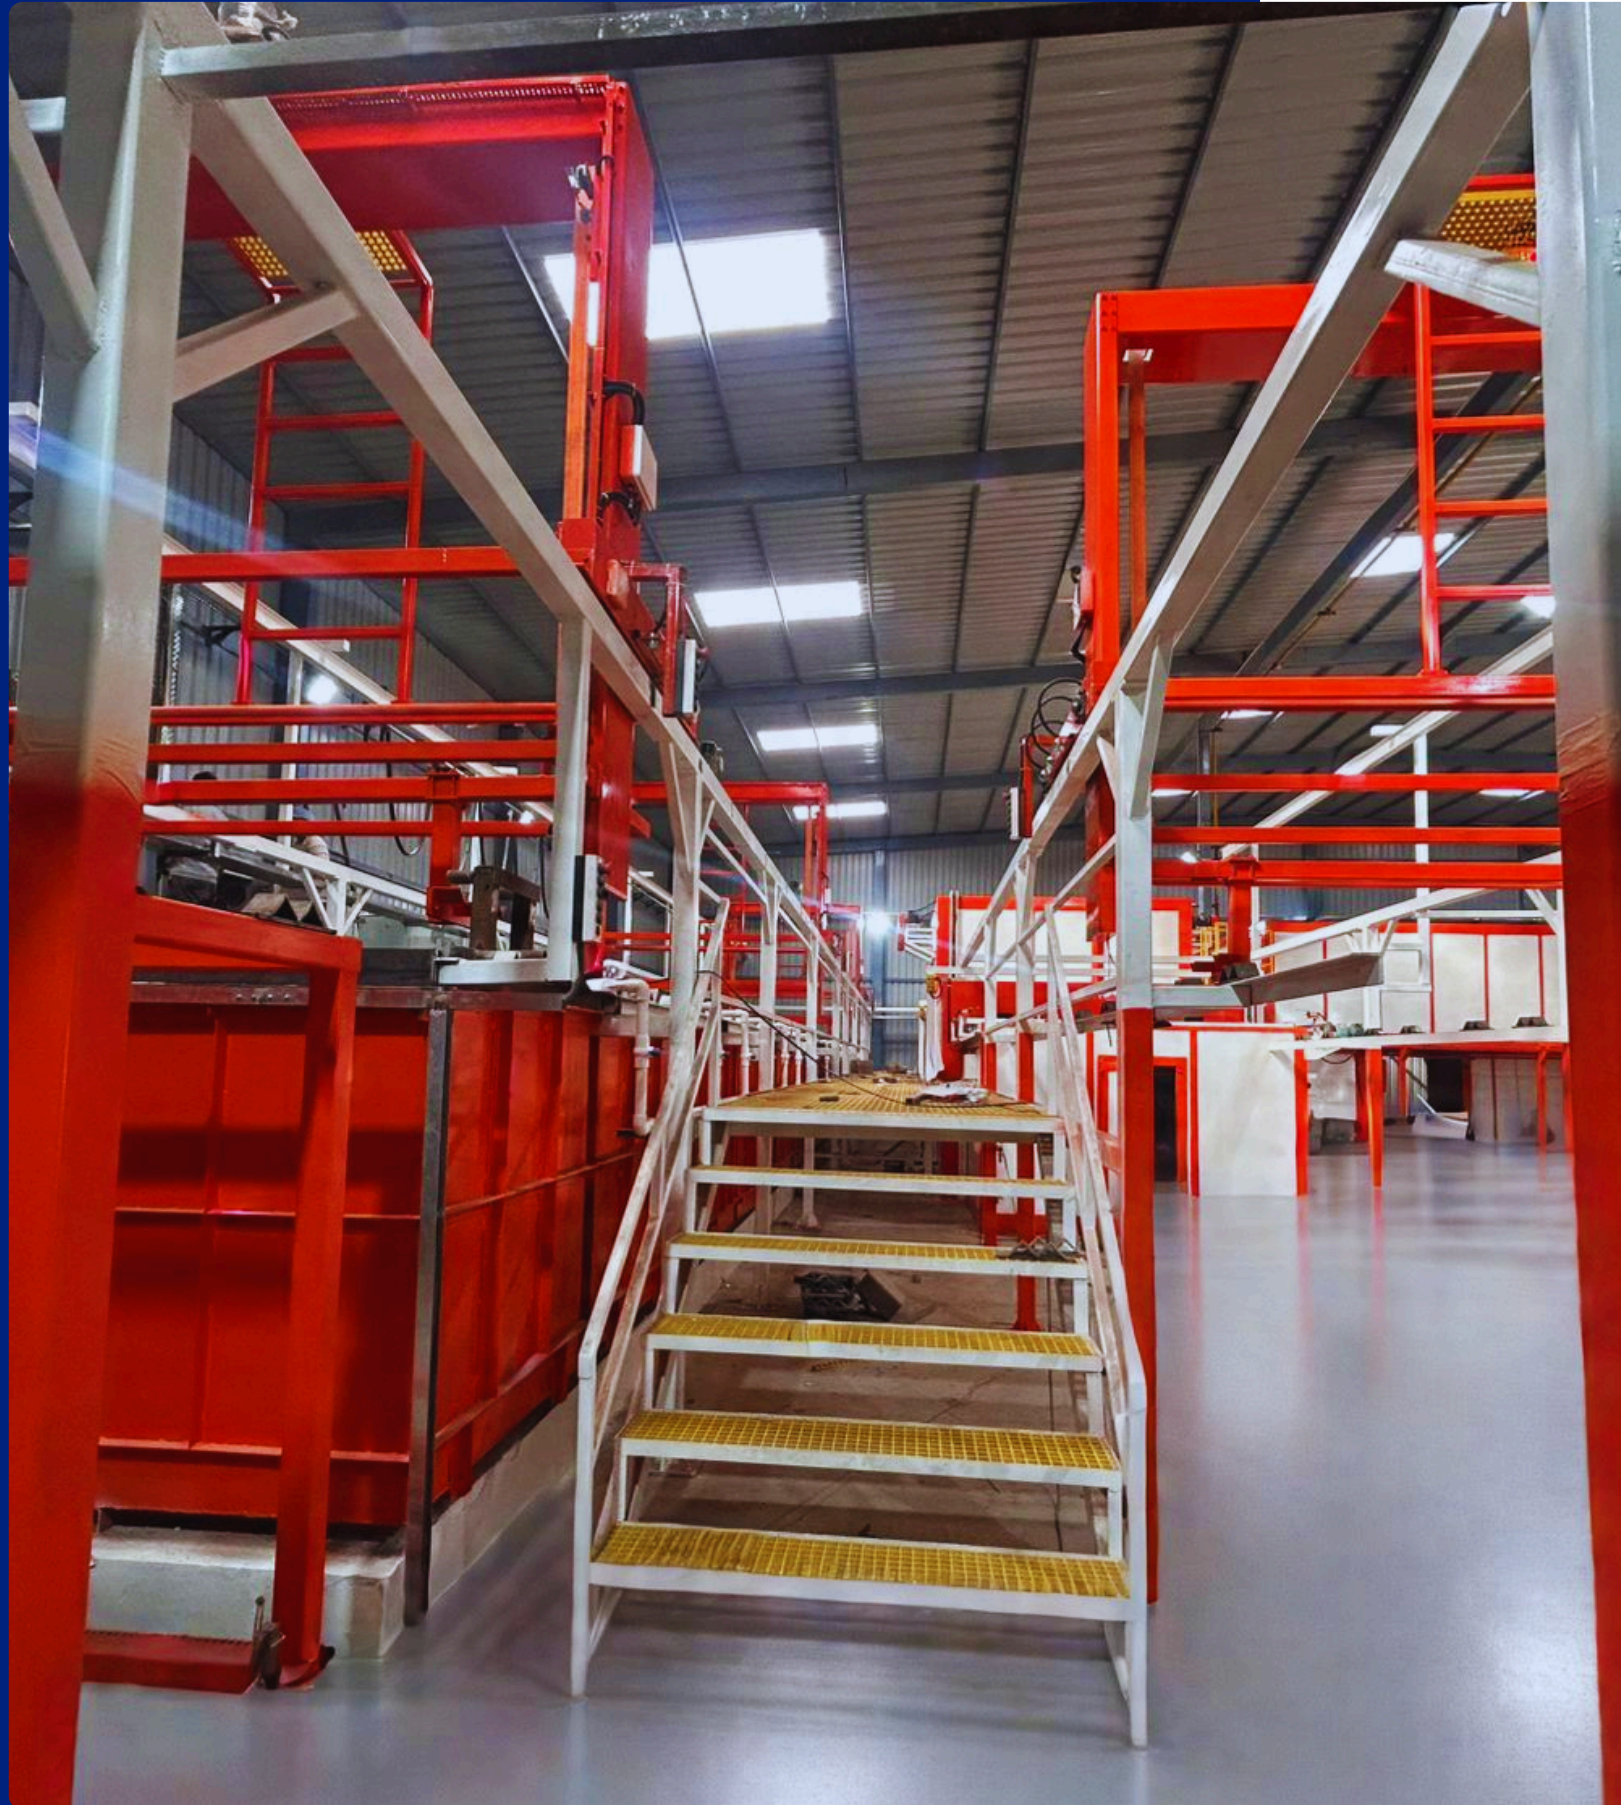

2015 Yogesh Trasport

2017 Omkar Engineering

2023 Zink Plating

2025 CED Coating

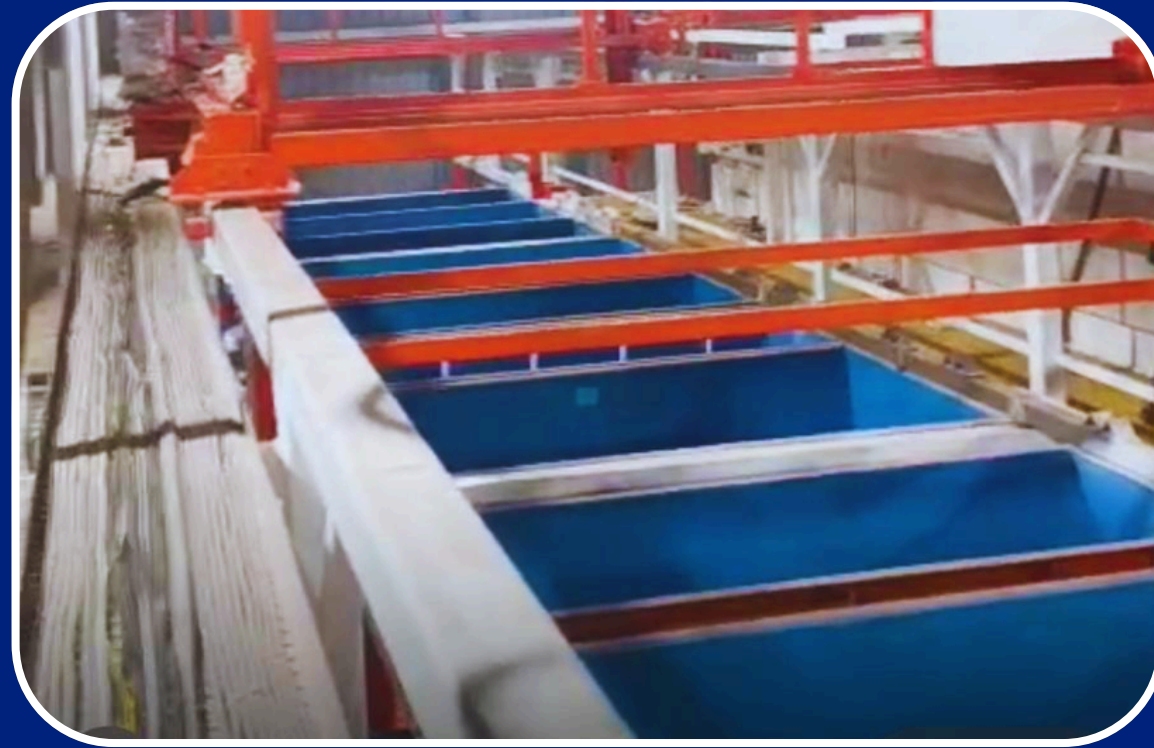

CED Coating | Powder Coating | PVC Coating

KenaCoat delivers advanced surface coating solutions designed to enhance durability, protection, and finish for industrial components. Our operations are built around process discipline, technical expertise, and consistent execution to meet demanding manufacturing standards.

- **Suitable for high-volume industrial applications**
- **Engineered for long-term surface protection**
- **Focused on repeatable and uniform output**
- **Process-controlled coating environment**

Pre Treatment Tank

- > **Volume : 5500 Ltrs**
Size : 2.5 x 1.5 x 1 meter
- > **Special Spray System**
Available in WR1 & DIWR1

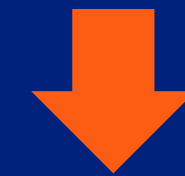

CED Coating Line

- > **Fully Automatic**
Transporter Type Line
- > **Mitsubishi**
PLC System

CED Coating Line

- > **Conveyor Type**
Oven System

Circulation System with Pump

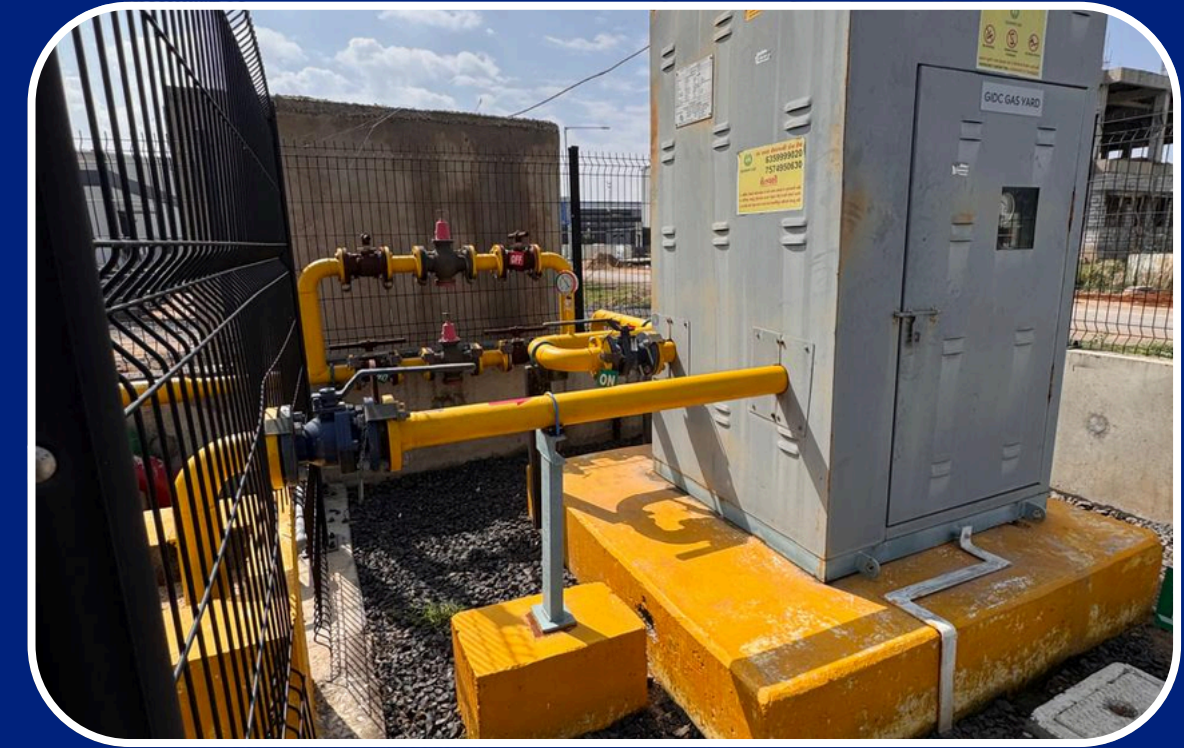

- For eliminate the dust particle from tank uses back filters
- Pressure difference maintain as per pressure gauge reading

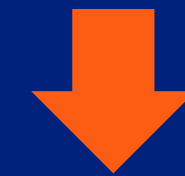

Hot Water Generator

- Automatic heating system for produced hot water at controlled tempature and low pressure

PNG Gas System

- Avialable for create temperature

Pre Treatment Tank

- > **Volume : 4000 Ltrs**
Size : 2.5 x 1 x 1 meter
- > **Air Agitation System for Circulation**

Powder Coating Booth

- > **Automatic Reciprocator System Available**

Powder Coating Oven

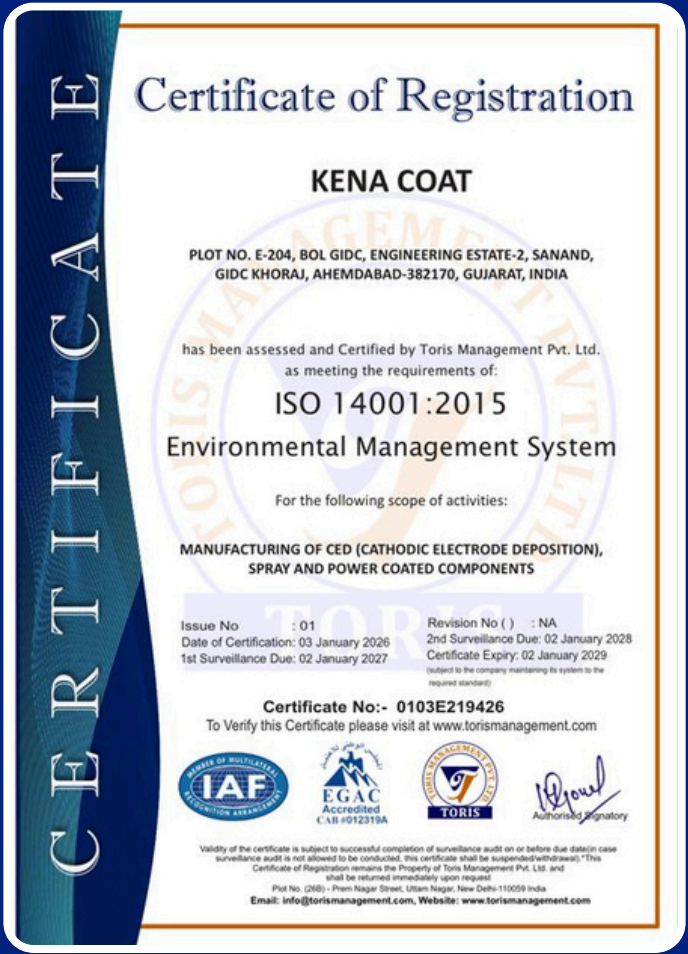

- > **Fully Auto Conveyor Type Oven**

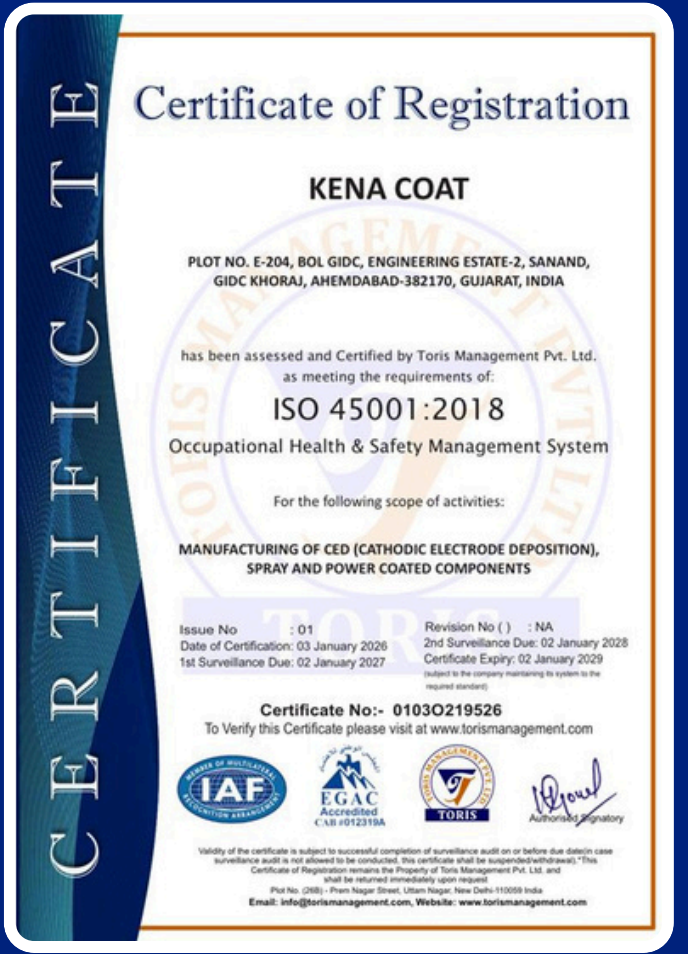

Certificates

ISO 9001 : 2015

ISO 4001 : 2015

ISO 45001 : 2018

PVC Coating

Fully Equipped Testing Laboratory

Product Testing Equipments

- Pipate
- Shechrometer
- Weighing Sc.
- Conductivity
- PH Meter
- Oven

Product Testing Facilities

- Blend Test
- Impact Test
- Adhesion Test
- Salt Spray Tester
- Hardness Test
- Water Resistance

Product Range : Powder Coating

Cumulative Volume : 1.2 lack/annum

Cumulative Volume : 1.2 lack/annum

Cumulative Volume : 1 lack/annum

Cumulative Volume : 1 lack/annum

Product Range : Sheet Metal

Cumulative Volume of Each Part : 1.2 lack per annum

Our Clients

Sheet Metal Components | Steel Fabrication

Omkar Engineering specializes in the manufacturing of sheet metal components and fabricated steel parts with a strong emphasis on dimensional accuracy and structural integrity. Our operations are aligned to support dependable production requirements for industrial applications.

- Suitable for custom and repeat components
- Strong control over tolerances and fitment
- Precision-focused fabrication processes
- Reliable support for industrial assemblies

Product Range : Steel Fabrication

Cumulative production 3000 pc per annum

Cumulative production 1500 pc per annum

Cumulative production 2000 pc per annum

Cumulative production 3200 pc per annum

Product Range : Steel Fabrication

Cumulative production 1800 pc per annum

Cumulative production 2000 pc per annum

Cumulative production 2500 pc per annum

Cumulative production 2800 pc per annum
